## HOULIHAN LOKEY

Total adjusted operating expenses improved to \$536 million for fiscal year 2016, compared with \$551 million for fiscal year 2015. Adjusted employee compensation and benefits expenses decreased (6%) to \$447 million for fiscal year 2016, as compared with \$474 million for fiscal year 2015. The reduction in adjusted employee compensation and benefits expenses was due to our change on October 1, 2015 from a revenue sharing model that historically approximated an awarded compensation ratio of between 67% and 71% to a target adjusted awarded compensation ratio of between 65% and 66%. This resulted in an adjusted awarded compensation ratio of 67% for fiscal year 2016, versus 71% for fiscal year 2015.

Adjusted non-compensation expenses were \$89 million for fiscal year 2016, compared with \$77 million for fiscal year 2015. The increase in adjusted non-compensation expenses was primarily a result of (i) planned increases in non-compensation expenses as a result of being a public company, and (ii) increases in general operating expenses associated with the significant expansion of the Company's financial staff.

Total adjusted operating expenses were \$136 million for the fourth quarter of fiscal year 2016, a decrease of (7%) when compared with \$146 million in adjusted operating expenses for the fourth quarter of fiscal year 2015. Adjusted employee compensation and benefits expenses were \$115 million for the fourth quarter fiscal year 2016, compared with \$129 million for the same three-month period a year ago. The decrease in adjusted employee compensation and benefits expenses was primarily the result of our change on October 1st from a revenue sharing model to a target adjusted awarded compensation ratio. This resulted in an adjusted awarded compensation ratio of 66% for the fourth quarter of fiscal year 2016, versus 72% for the fourth quarter last year.

Non-compensation expenses were \$21 million in the fourth quarter of fiscal year 2016, compared with \$17 million in the prior year period. The increase in non-compensation expenses was primarily a result of (i) planned increases in non-compensation expenses as a result of being a public company, and (ii) increases in general operating expenses associated with the significant expansion of the Company's financial staff.

### **Segment Reporting for the Fourth Quarter**

For the fourth quarter ended March 31, 2016, Corporate Finance revenue was \$79 million as compared with \$89 million during the same period last year. Revenues were impacted quarter-over-quarter primarily as a result of a reduction in the number of closed transactions given challenging market conditions in the first half of the quarter. CF closed 40 transactions in the fourth quarter, versus 49 transactions in the same quarter last year. Segment profit equaled \$24 million for the three months ended March 31, 2016, compared with \$34 million for the three months ended March 31, 2015. Profitability was affected due to the corresponding decrease in revenues and higher non-compensation expenses for the quarter, which was partially offset by our change on October 1st to a target adjusted awarded compensation ratio of between 65% and 66%, as described above.

For the fourth quarter ended March 31, 2016, Financial Restructuring revenue was \$72 million, compared with \$66 million during the prior year period. Segment profit was \$20 million for the three months ended March 31, 2016, compared with \$12 million for the three months ended March 31, 2015. For the fourth quarter ended March 31, 2016, Financial Advisory Services revenue was \$32 million, compared with \$31 million in the prior year period. Strong quarter revenues for FAS reflect (i) continued strong performance for transaction based products despite weakness in the overall M&A markets, and (ii) continued strength in non-transaction based products. Segment profit equaled \$10 million for the three months ended March 31, 2016, compared with \$8 million for the three months ended March 31, 2015. The increase in profitability was a result of (i) the corresponding increase in revenues, and (ii) our change on October 1st to a target adjusted awarded compensation ratio of between 65% and 66%, as described above. FAS generated 538 fee events in the fourth quarter, versus 532 fee events during the same quarter last year.
